

Installation & Setup

Navigate to **Appearance** → **Themes**.

Click the **Add New** button at the top of the page, and search **OceanWp** theme then install and activate it.

Installing Required Plugins

There should be a notice on the main themes page after you activate the theme. *Click the **Begin Installing Plugin** link attached to this notification to install **Ocean Extra plugin**.*

Click **Install** on the next page.

The plugin should install and activate automatically. If so, click on activated.

Installing Elementor

You need to install and activate the [Elementor WordPress plugin](#).

Navigate to **Plugins** → **Add New** or you can find the plugin inside our package folder.

Enter “**Elementor**” in the search box, and install and activate the **Elementor Page Builder plugin**.

Installing Others Plugins

Got to Plugins → Add New → Upload Plugin

Navigate to your browser and find our package and on **Plugins** folder you can install **Elementor-Extras.zip** and **Unlimited element for elementor.zip** one after another.

(You can install **modal-for-element.zip** if you want a pop up plugin it's very useful.)

For **element-for-elementor.zip** after installing it you need to go to **Unlimited Elements** tab on your Dashboard and click on **Import Addons**.

You just need to drag and drop the content of **Addons for Elementor** folder on drop files area and click to **Import Addons** button

Set your Permalink

Got to Settings → Permalink

and choose **post name** and save.

Importing an Elementor Template

Go to **Elementor** → **My Library**

2. Click the Import Template button

3. Choose a .JSON file to upload a single template, or a ZIP file with few .JSON files to bulk upload, and click Import Now.

Ps : we gives you also **section layout** (footer and header) – You can install them with the same process.

Install Pages Layouts

Go to **Pages** → **Add New**

Add a title, **Home** for start and on **Page Attributes** → **Templates** → select **Elementor Canvas** and click on **Publish** button .

Then click on **Edit with Elementor** button.

Now you are on Elementor dashboard. Click on **ADD TEMPLATE** and then on **My templates** on top.

You see your library with all your templates. Choose **Home** if you decide to start with the **home page** and click on **Insert** button. After that click on **Update** (green button) on bottom.

Repeat this operation for each page: **Home, Biography, Members, Music, Each single album, Videos, tours date** and **contact** page.

Create Menu

Go to **Apparence** → **Menu**

Create a menu, name it and add pages and save it. If you need to choose this menu on header:

Go to a **Page (Home, Bio etc)** → **Edit with Elementor** click on menu section/row (to edit), and on left sidebar, choose your menu location.

Change links

Add your own links to buttons, Previous and Next buttons (on Album pages) and social medias to replace ours,

Fanlinks

Go to <https://www.toneden.io/> and create a free account.

Click on **Admin** and **ADD ACCOUNT** and write your facebook page (not the url, directly your artist name)

Then Go to **Fanlinks** and create a **Fanlinks**.

Put your iTunes or Google play links and follow the instructions.

After the process copy your fanlinks Url and come back to your website, and paste it on your button section « LISTEN » at your Home page.

The image displays a website editor interface on the left and a live preview of the website on the right. The editor interface includes tabs for 'Content', 'Style', and 'Advanced'. Under the 'Buttons' section, a 'LISTEN' button is selected, indicated by a red arrow. The configuration panel for this button includes a 'Typography' section with 'CONTENT', 'LAYOUT', and 'STYLE' tabs. The 'Text' field contains 'LISTEN'. The 'Enable Tooltip' toggle is turned on. The 'Tooltip Position' is set to 'Global'. A text area contains the message 'Listen on your favorites music services!'. The 'Link' field is populated with 'https://baban.fm/198'. The 'Icon' dropdown is set to 'Select icon'. Below the configuration panel is an '+ ADD ITEM' button.

The live preview shows a website header with a logo and navigation links 'Home', 'Bio', and 'M'. The main content area features the text 'HELLO THIS IS,' followed by the large, colorful text 'King Suprem'. Below this is a paragraph of placeholder text: 'I am text block. Click edit button to change this text. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut elit tellus, luctus nec ullamcorper mattis, pulvinar dapibus leo.' At the bottom, a 'LISTEN' button is highlighted with a blue box and a red arrow pointing from the editor's configuration panel.
